

MARTIN® PIN LATCH SECONDARY BELT CLEANER

VERSATILE PERFORMANCE,
SIMPLE SERVICE.

THE ONE AND ONLY

Martin® Pin Latch Secondary Belt Cleaner

- Tungsten carbide-tipped segmented blades on a square mainframe smoothly rides over mechanical splices
- One-part blade and buffer requires no nuts and bolts
- Simple service utilizes unique pin latch mechanism and integrated tool
- Simple installation does not require alignment or setting of the blades
- Blade tension can be adjusted for varying conditions including belt speed, material conveyed, cleaner position relative to the head pulley, etc.
- Handles belt speeds of up to 5.1 mps and accommodates belt rollback. Carbide tip is acid and abrasion resistant.
